

JANOME

Accessory of the Month

September 2017

Custom Crafted Zig Zag Foot

This excellent multifunction foot allows for fantastic visibility whilst the machine is sewing. The foot is a reinforce clear plastic with markings for you to use as guides. The foot can be used for decorative stitching, monogramming, applique, cut work and other applications where you may need to sew with full view of the needle.

This foot can also be referred to as a Open Toe Satin Stitch Foot or F2.

This Accessory of the Month does have a bonus project for you to make using the Custom Crafted Zig Zag Foot. Press the link to download the project.
