Artistic Edge Digital Cutters

The Artistic Edge offers you an endless options for every kind of crafter! The included Artistic SimpleCut software can do much more than just basic editing. Scrapbookers will love the ability to create custom shapes; quilters will love creating one-step appliqué and decorators will love the projects that they can create for the home. Using the included software you will be able to make, create or alter your designs to create an endless amount of projects that will be individual just for you. There are two option of cutter which include the 15" or 12" machine. The options are endless with the included blades and mats to start creating with.

This Accessory of the Month has a bonus project for you to make using the Artistic Edge Digital Cutter. Press the link to download the project .
