

# JANOME

## Accessory of the Month

November 2019

### OVERLOCKER PIPING FOOT

This foot is used to create your own unique piping for your creative projects. There are two sizes available in the Overlocker Piping Foot being 1/8" and 3/16". Use piping cord up to 5mm. When inserting the created piping around corners, snip the piping seam allowance in several places to increase flexibility, when stitching piping into your project. This accessory has full instructions included.

This Accessory of the Month has a bonus project using the Overlocker Piping Foot.

Press the below link to download the project.
