Colour coded threading paths for simple threading	LED lamp
Quick reference Chart	Soft cover
Extra large work area	Free arm configuration
Differential feed gives you the ability to efficiently stitch those challenging hard to sew fabrics	

Type of Stitches

Triple cover stitch (3-needle 4-thread)

Free Arm Facility

The detachable sewing table easily slides out of the way to reveal the free arm. Also handy for sleeves, cuffs and hard-to-reach areas.

Wide Cover Stitch (2-needle 3-thread)

Tension Lever Control (TLC)

Easily change from heavier cotton knits to tricot, light cotton, sheer home décor to bridal fabrics at the flip of a switch. With TLC, you don't have to adjust tension for flat seams and even stitching when switching between fabric types. This unique feature automatically softens the looper tension for perfect stitching on a wide variety of fabrics.

Narrow Cover Stitch (2-needle 3-thread)

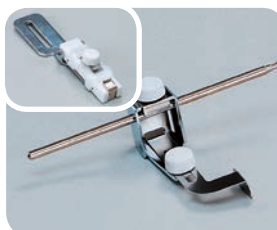

Quick Reference Chart

Located in the looper area for easy access is the colour threading guide to help you thread without consulting the manual.

Threading the lower looper will make you smile. It's the easiest ever! Simply pull the thread through, push the looper closed, and you're ready to stitch.

Chain Stitch (1-needle 2-thread)

Optional Accessories

Optional accessories include the clear view cover stitch foot, seam guide attachment, elastic gathering attachment, tape binder, centre guide foot and cover hem guide.
