

# JANOME

## Accessory of the Month

October 2017

### Free Motion Darning Foot

Sometimes referred to as the embroidery foot, the darning foot is used for 'free hand' embroidery and darning to ensure proper stitch formation, minimize skipped stitches and puckering and also protects your fingers while you move the fabric freely under the needle. Especially beneficial to those just learning how to do free hand embroidery. Convenient for lace and other fabrics that catch on an open toe, this general use foot is also good for holding the fabric in front of the needle.

This Accessory of the Month does have a bonus project for you to make using the Free Motion Quilting Foot. Press the link to download the project.
