

# JANOME

## Accessory of the Month

January 2020

### ULTRA GLIDE NEEDLE PLATE & ULTRA GLIDE FOOT

This foot is from a special resin that allows easier sewing of sticky materials. The ultra glide foot moves smoothly over faux leather, ultra suede, vinyl and even plastics. This non-stick foot glides along with no drag, so you can sew on these specialty materials just like they were regular fabric. Also, available for limited models is the Ultra Glide Needle Plate which has a special non-stick coating.

This Accessory of the Month has a bonus project using the Ultra Glide Needle Plate and Ultra Glide Ft. Press the below link to download the project.
