

JANOME

Accessory of the Month

July 2022

Ruffler Foot

Rufflers have been around for a very long time and have changed very little over the years; they have however remained very popular. Although at first sight a ruffler may appear bulky and complicated, its innovative design actually makes it very easy to use. This design allows fabric to be ruffled or pleated to the desired fullness quickly and easily and also has the capability to vary the sizes of ruffles.

	Narrower ← → Wider		
Ruffling interval	 One tuck is obtained with every stitch	 One tuck is obtained every 6 stitches	 One tuck is obtained every 12 stitches
Ratchet gear feed plate setting	 Set to 1 on the ratchet gear feed plate	 Set to 6 on the ratchet gear feed plate	 Set to 12 on the ratchet gear feed plate

This Accessory of the Month has a bonus sewing project. Project download link < [Christmas Kitchen Towel](#) >

Part Number
202095004 (BP)
846415008 (BP)
