

JANOME

Accessory of the Month

November 2022

Piping Foot (narrow) 9mm [I2]

This foot is used for piping with a cord diameter of about 2 mm. It is useful for making narrow piping tape using the same fabric as the piece of work, or for attaching piping tape to fabric.

There are two grooves on the back side with the left one shorter than the right one. The foot is therefore suitable for curve sewing as well.

Using the sewn piping cord as a guide, you can top stitch with the same curve.

This Accessory of the Month has a bonus embroidery project.
