

JANOME

Accessory of the Month

October 2023

Taping Guide Foot

Use this foot for attaching tape to the edge of fabrics. Adjust the needle drop position with the thumb screw at the rear of the guide. Using the screw at the front of the guide, adjust the guide to suit the width of the tape being sewn. You can stitch a single fold tape; double-fold bias tape or fabric strip cut on the bias, up to 20mm in width. Guide the fabric with the left hand and tape with the right hand. Great for edging projects like potholders, small quilts, aprons or add tape as an embellishment detail to jackets, pockets, sleeve hem, collars, etc.

This Accessory of the Month has a bonus embroidery project.
