AcuSpark 2 is an app that explains how to use the sewing machine and provides useful tips. Simply read the QR code displayed on your sewing machine & all your questions will be answered.

Large array of accessories

Janome sewing machines come with various accessories, including extension tables, hard covers, bonus feet, and more!

Superior Needle Threader 2

The new design of this needle threader allows the thread to pass completely through the eye of the needle, giving you quicker and more precise threading!

Automatic Presser Foot Lift

When enabled, the presser foot will automatically go up when the machine stops, while keeping the needle in your work. This feature is very useful when turning corners.

Electronic Auto Tension

Adjust the thread tension effortlessly with the press of a button, or let the machine handle it by selecting the auto function.

Talk to your local Janome stockist to find out which machines have these GREAT features!
