## Accessory of the Month

March 2024

### Custom Crafted ZigZag Foot (F2)

This foot is supplied with some of our Janome models; it is also known as an Open-Toe Satin Stitch Foot. Designed with a bevelled underside and two outer footings with metal base strips, gives a small footprint on the fabric making it ideal for sewing dense satin stitches or decorative stitch patterns. The foot travels smoothly over the sewn stitches, without compressing or flattening, leaving a decorative raised finish. The clear plastic and open-toe, makes for easy viewing while stitching; plus, a centre needle mark on the foot, indicates the centre needle drop position; the user can confidently follow a marked line on fabric, using the centre needle position marker. This foot can also be used for quilting, monogramming, applique, and cut work.
