

JANOME

Accessory of the Month

April 2024

Quarter Inch Foot without guide (O)

This foot is the sister foot to the original $\frac{1}{4}$ " Seam Foot with a Guide and is supplied with some Janome 9mm models. Having no guide, align the right edge of the foot with the fabric edge to stitch a $\frac{1}{4}$ inch seam in from the fabric edge. The wide footprint allows for the fabric to be fed evenly and controlled while stitching a $\frac{1}{4}$ " seam. Having no guide gives stitching versatility, patchworkers can quickly stitch fabric pieces into blocks, by drawing a centre diagonal line then stitch a $\frac{1}{4}$ " seam on either side, cut along the drawn line to give 2 patchwork blocks. Alternatively, use this foot to topstitch along the fabric edge or parallel to a seamline to embellish your project/garment. The oval hole in the foot allows for the needle position to be adjusted, so a $\frac{1}{4}$ " seam can become a *scant* $\frac{1}{4}$ " seam. A handy foot to have for your machine.

The Accessory of the Month is used in our 'Block of the Month 2024'. [Download link < Block 5 and Block 6 >](#)

"BOM 2024" is about learning to use various stitches, accessories and techniques. At the end of the year all blocks are pieced together, quilted and bound into a completed quilt project.
