## GATHERING FOOT

This foot is for creating soft gathers in lightweight fabrics. The underside of the foot is raised behind the needle and has a thick bar in front of the needle to gather and attach a ruffle onto a flat piece of fabric simultaneously.

*Scan to see the Gathering Foot in action!*

## BORDER GUIDE FOOT

Create evenly spaced rows of decorative stitching with this border guide set. The horizontal red line matches up the needle drop of each row and the vertical red lines allow accurate positioning of one row with another.

*Scan to see the Border Guide Foot in action!*

## RIBBON SEQUIN FOOT

This foot is designed with guides through which ribbon or strung sequins can be inserted and it will allow them to feed through evenly as you sew.

*Scan to see the Ribbon Sequin Foot in action!*

## ULTRA GLIDE FOOT

Molded from a special resin that allows easier sewing of sticky materials, the ultra glide foot moves smoothly over faux leather, ultra suede, vinyl and even plastics on the ultra glide needle plate. This non-stick attachment glides along with no drag so you can sew on these surfaces just like they were regular fabric.
