

JANOME

Accessory of the Month

June 2024

Bobbin Holder for Free Motion Quilting and Hand-look Stitching [Blue Dot]

Do you have issues with your free motion stitching? We use a free motion foot, so why not also use a bobbin holder made for free motion work. The majority of Janome Bobbin Holders have a coloured dot, the most common being the red dot bobbin holder for everyday sewing. This FMQ bobbin holder is often called the Blue Dot Bobbin Holder. It is preset with a lower tension, making it easier to achieve even tension control when free motion quilting or using the machines built-in hand-look stitches. Stitch smarter and enjoy your creative passion.

The Accessory of the Month is used in our 'Block of the Month 2024'. [Download link < Block 9 and Block 10 >](#)

"BOM 2024" is about learning to use various stitches, accessories and techniques. At the end of the year all blocks are pieced together, quilted and bound into a completed quilt project.

Did you know Janome have a Bobbin Holder Cleaner [Part number 859858007]

Used to clean the bobbin area and bobbin holder after sewing with adhesives such as basting sprays, iron-on stabilizer, sticky stabilizer, etc. Cleaning the bobbin area & bobbin holder after using these products can prevent the bobbin holder from jamming as any residual glue will heat up with friction and you can experience stitching issues plus a sticky bobbin holder.....take 5 minutes to clean giving some TLC.

Part Number	Compatible Machines
202433008	Exclusive to Continental models: CM17, CM8P, CM7P & CM6
200445007	All top-loading models <u>with</u> built-in automatic thread cutter 9mm & 7mm <i>Excluding Continental models [CM17, CM8P, CM7P, CM6]</i>
