

JANOME

Accessory of the Month

October 2024

Janome Purple Tip Needles

The purple tip needle is a size 14/90 needle that prevents skipped stitches in heavy fabrics including knits in ordinary sewing and when embroidering. It features a ball point tip* which helps to create neat and tidy stitches.

*The ball point tip is especially useful when sewing knitted fabric and synthetic fabric as it prevents fabric thread breakage.

Use this needle for:

- Quilting through multiple layers, it helps prevent 'eyelashing' on your quilt back.
- Embroidery with high density designs and/or thick fabrics.
- Use with fluffy threads like cotton.
- Normal sewing for shrink fabrics such as knits, tricot or synthetic fabrics such polyester.

Janome 'Block of the Month 2024'.

"BOM 2024" is about learning to use various stitches, accessories and techniques.

At the end of the year all blocks are pieced together, quilted and bound into a completed quilt project.
